

Bravatek registers Voosh products for sale under their NASA SEWP V contract

Bravatek's inclusion gives Voosh access to a multi-billion dollar market

SANTA CRUZ, CA, USA, August 2, 2017 /EINPresswire.com/ -- Providing the latest in commercial Information Technology (IT) products and services, the NASA Solutions for Enterprise Wide Procurement (SEWP) contract vehicle has an outstanding track record of serving up fresh technology for Federal Agencies. SEWP is a Government-Wide Acquisition Contract (GWAC) consisting of over 140 pre-competed Prime Contract Holders, including more than 110 small businesses. The SEWP contracts offer a vast selection and wide range of commercial advanced technology, including, desktops and servers, IT peripherals, network equipment, storage systems, security tools, software products, cloud based services, telecommunication, Health IT, video conferencing systems and other IT and Audio-Visual products along with product based services such as installation, maintenance and other services related to in-scope products to all Federal Agencies (including Department of Defense) and their approved support service contractors.

Mr. Kevin Cornell, Chairman & CEO of [Voosh LLC](#), stated: "When we entered into this agreement with [Bravatek](#) less seven days ago, we did so with the hopes that the Voosh products would be available through government contracts sometime in the fall. To have it added to the SEWP in under a week is, quite frankly, unheard of. Last week I stated that I was pleased to be joining the Bravatek team. Let me rephrase that to say I am thrilled and impressed with Bravatek, their marketing prowess, management team, and how quickly they make things happen. Together, we will surely make an unbeatable team!"
