

Europlus Direct optimises efficiency and improves customer responsiveness with Microsoft Dynamics NAV

International IT Support Company increases visibility and improves customer service through the fast deployment of ERP solution from The NAV People

NEWBURY, BERKSHIRE, ENGLAND, August 3, 2017 /EINPresswire.com/ -- [Europlus Direct](#) has chosen Microsoft Dynamics NAV from [The NAV People](#) to optimise efficiency, improve workflows through the automation of manual processes and provide a scalable platform as the company expands its international business operations. Deploying Dynamics NAV has enabled Europlus Direct to extend business operations and deliver 24x7 customer account facilities through the development of a customer portal. The optimised Microsoft Dynamics NAV solution was integrated with essential business applications, including e-commerce and Spindle document production, and deployed in just 6 weeks!

Rob Goodair, IT Director at Europlus Direct explains; 'From the initial conversation with The NAV People it was clear they understood what we required and they were able to outline the options available and the associated costs. With the information and direction they provided, we were able to turn around the project, going live within 6 weeks.'

Information is now shared quickly and accurately throughout the business, enabling finance to invoice according to the customer's preference, be it multiple invoices or multiple lines on one invoice and in one currency.

Since deploying the optimised Dynamics NAV solution, Europlus Direct has continued to evolve their systems and currently has a customer portal in development, which when launched will deliver 24x7 account access to customers. The portal will allow customers to manage orders, renewal requests and complete transactions online at a time convenient to them.

Ian Humphries, Managing & Product Director at The NAV People commented; 'Microsoft Dynamics NAV is an incredibly flexible solution that can work for virtually every business environment and industry. Understanding the customer's requirements is the key to successfully delivering a project in a transparent and cost effective manner. Europlus Direct had clear objectives and since deployment have continued to gain more functionality from their solution and achieve even greater business benefits.'

About The NAV People

The NAV People started trading in the UK in 2009 and the business has grown through word of mouth. They are now the country's no.1 reseller who solely concentrate on Microsoft Dynamics NAV. The NAV People set out to create a company with simple but really important aims; treat customers fairly, provide value for money and make them happy, while treating staff as members of an exceptional family and not merely employees.

The aims of The NAV People are what everyone should expect from a partner in business, a high level of expertise, amazing product innovation and the absolute best standard of customer service. The NAV People believe fairness is the key to good business and profit is the end result of successful business relationships, not a goal to aim for.

The NAV People operate from three locations in the UK; Newbury, Derby and Manchester and also have a US corporate office in Las Vegas. For anyone who is looking for a committed, friendly and knowledgeable reseller of Microsoft Dynamics NAV, The NAV People are the ideal partner. For more information: www.TheNAVPeople.co.uk
