

Johnson & Johnson Presents the Great Importance of Mathematical Modeling in Freeze-Drying

NEW JERSEY, ISELIN, UNITED STATES, August 8, 2017

/EINPresswire.com/ -- Did you get a chance to checkout the complete agenda for Lyophilization USA? A value-packed [brochure](#) with top pharma companies joining, including GSK, Tempris, Shire, Takeda Vaccines, Johnson & Johnson and more, who will be presenting a vast range of topics and issues within freeze-drying. www.lyophilization-usa.com/ein

A particular topic in freeze-drying, is the great importance of optimizing a freeze-drying cycle, as it aims to reduce cycle times and costs while increasing product quality. Mathematical modeling comes as a tool to help better understand the process variables, and consequently aid optimization studies.

Hear more from Melissa Lash, Scientist, Drug Product Development from Johnson & Johnson at Lyophilization USA, as she presents: 'Optimization of Primary Drying Cycles using Mathematical Modelling.'

Excellent balance of topics within freeze-drying and even slightly outside it!"

Biopharma

This will involve assessing the variables of product properties, to the development of optimized cycles and scale-up strategies, presented to you by one of the world's leading pharmaceutical companies.

Further information is available at: www.lyophilization-usa.com/ein

For those looking to attend there is currently a \$100 [early-bird](#) saving.

SMi Presents the 3rd Annual Conference on...

Lyophilization USA

Date: November 16th – 17th 2017

Location: Iselin, New Jersey
