

# Tech Treats, LLC Celebrates its Rebirth by Offering High Quality Business Videos at Unspeakably Low Prices

*High Tech Power for Low Tech People*

COLUMBIA, MD- MARYLAND, UNITED STATES, September 10, 2017

/EINPresswire.com/ -- Tech Treats LLC, previously Savvier Health, LLC, has redirected its focus from health-related technology to empowering small and medium size businesses to use state of the art technology to optimize their presence and compete on a local, national, and even global level, all on a shoestring budget.

“Many business owners are intimidated by technology or hesitant to invest thousands of dollars in what many experts consider to be the most basic elements needed to grow a business in 2017 and beyond, namely mobile apps and [explainer videos](#). Naturally, this stunts their potential for growth, considering the competition is showcasing their products and services on a much higher level,” says Myrt Hester, spokesperson for [Tech Treats, LLC](#).

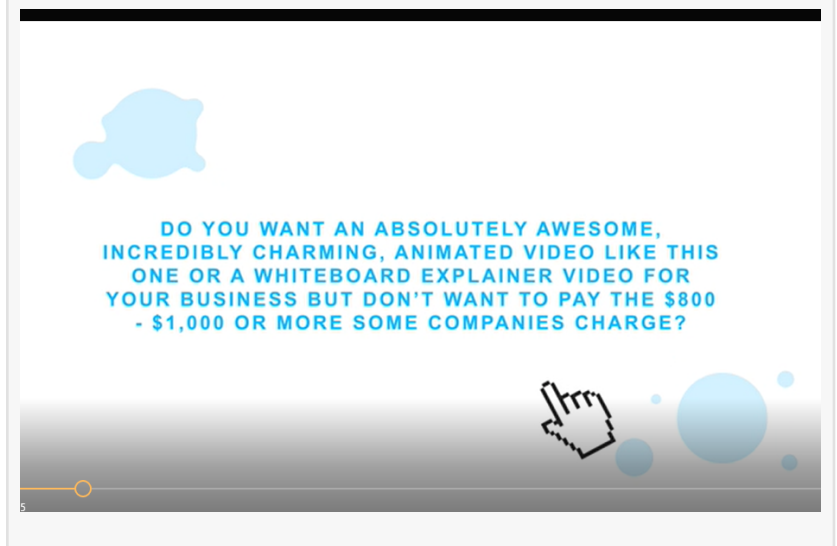

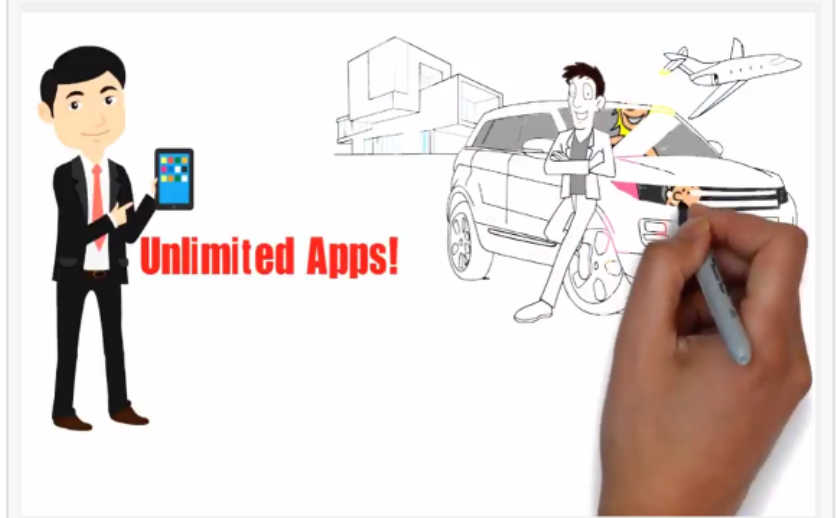

“Over the next few months, Tech Treats, LLC will be rolling out a series of unique tech offerings geared toward small to medium size businesses, and our subscribers will enjoy a preferred pricing structure on these offerings. We chose to begin our ‘business revival’ by offering unusually low introductory pricing on high quality promotional videos for subscribers to our robust, yet surprisingly simple do-it-yourself mobile app creation platform, [Apps I Like](#) (<http://appsilike.net>), which was featured on NewsWatch TV in May, 2017, and nonsubscribers get great prices as well,” Myrt goes on to say.

Tech Treats, LLC’s mission is to decrease the tremendous gap between multi-million dollar businesses with a virtually unlimited marketing budget and entrepreneurs striving to grow their business on a shoestring budget by making vital technology affordable and seamless. Some services, such as videos, will be performed by professionals, while others, such as mobile app creation, will require a more hands-on approach, though Tech Treats, LLC provides complimentary written and

video tutorials that are so basic, the average high school graduate could become proficient in a Saturday morning or two. In addition, each client is assigned a project manager should any questions arise. Tech Treats, LLC also offers custom mobile app creation by a mobile app developer who has designed app templates for some of the world's leading mobile app platforms. More to come soon.
