

Increasing Number of Cyber-Crimes & Advancement in Network Security Devices are Expected A Foster Growth

Increasing Number of Cyber-Crimes and Advancement in Network Security Devices, Research Nester

NEW YORK, NEW YORK, UNITED STATES, October 9, 2017

[/EINPresswire.com/](http://EINPresswire.com/) -- The global [enterprise/business firewall router market](#) is segmented into industry such as e-commerce & retail, information technology, government, telecommunication, manufacturing, healthcare and others. Among these segments, information technology segment is expected to occupy the top position in the market. Further, the growth of information technology sector is riding on the back rising security concerns. Moreover, rising concerns to restrain the network security risks across various organizations is projected to impel the demand for enterprise/business firewall router. Global enterprise/business firewall router market is expected to register a 10.2% CAGR over the forecast period. Moreover, the Global Enterprise/Business Firewall Router Market is believed to grow at exponential revenue during the forecast period i.e. 2017-2024. The market is expected to expand on the back of stringent government policies and increasing threats such as data theft, ransom ware and others.

The large enterprises segment by end-user is estimated to register a highest CAGR during the forecast period. Moreover, the large enterprises segment is expected to account for the largest share of revenue across the globe. Factors such as emergence of new policies such as bring your own device coupled with rising security concerns is expected to boost the demand for enterprise/business firewall router.

Advancement in network security

Growing adoption of advanced technology to curb the risk of threats and development of modern network firewalls with multifunctional security capabilities such as intrusion prevention service (IPS) are projected to propel the growth of enterprise/business firewall router market. Furthermore, rising number of cyber-crimes across the globe have led the adoption of firewall router. This factor is believed to escalate the growth enterprise/business firewall router market.
