

"Initial Findings from the European Union's HTLF on European Financing Policy in the Social Infrastructure Sectors"

SMi reports: European Long-Term Investors Association to discuss European Financing Policy in the Social Infrastructure Sectors at Benelux Infrastructure Forum

LONDON, WATERLOO, UNITED KINGDOM, October 11, 2017 /EINPresswire.com/ -- Helmut Von Glasenapp, Secretary-General of the European Long-Term Investors Association, and member of HTLF SI ([High-Level Task Force on Social Infrastructure](#)) will be sharing the "Initial Findings from the European Union's....(HTLF) on European Financing Policy in the Social Infrastructure Sectors, at SMi's Benelux Infrastructure Forum 2017.

'Launched by the European Long-Term Investors (ELTI) Association chaired by Laurent Zylberberg, the High-Level Task Force on Social Infrastructure (HTLF SI) held its first plenary session in Brussels on 13 February in the presence of Romano Prodi, former President of the European Commission and Christian Sautter, former French Minister of the Economy, Finance and Industry'. *

'HTLF SI is due to publish recommendations fostering the financing of social infrastructure, especially in the fields of education, health and social housing. Some twenty experts working across two sub-groups will inform the Task Force. The first will focus on "investment needs in social infrastructure" and the second on "the availability and gaps in terms of financing demand in such sectors'. **

Speaking on day 2 of the conference, Mr Von Glasenapp will outline the need for the Task Force and address the context of social infrastructure issues. He will detail the stakeholders involved and the set-up of the Task Force. Mr Von Glasenapp will also summarise the structure of the HTLF's research and explain the findings and the recommendations thereafter.

Mr Von Glasenapp joins a speaker line-up of international bank and law firms including Allen & Overy LLP, Green Investment Bank, Macquarie Capital and more.

[The Benelux Infrastructure Forum](#), in November, will cover alternative financing methods such as project bonds, pension funds, government funding, and project financing as well as growing on and

offshore markets to which investors are attracted. Developments within the infrastructure market of the Benelux region will be reviewed to find out what challenges were faced, how these were overcome, and the outlook of the infrastructure market. The conference will feature presentations and discussions which will allow plenty of debate and interaction amongst delegates, and detailed analysis of the latest case studies.

The conference has established itself as the industry-leading event for the Benelux region and will provide an unparalleled opportunity to learn and network amongst senior executives in this thriving industry. Benelux Infrastructure Forum provides a platform to meet major players within this industry from banks, constructors and institutional investors to the lawyers and the regulators.

Alongside the two-day event, there will be a [pre-conference workshop](#) on “Financing Offshore Wind in the New Competitive Auction Environment” hosted by Amsterdam Capital Partners, taking place on the 21st November 2017.
