your company.

## About Stack8

We work with Cisco UC customers who need to reduce the cost and complexity of keeping their UC environment running efficiently and want to minimize (or eliminate) user frustrations around system performance.

Essentially, we are Cisco UC specialists, that provides a mix of managed services, proactive automation, and in-depth expertise to address both the mundane and complex Cisco problems,

SMACS UC Provisioning Tool

SMACS 4.0 is designed to ease organizations through the complexities of managing Moves, Adds, and Changes (MAC) for both users and devices. The solution can make changes in seconds across your entire user base instead of hours. The user interface is so intuitive that you can push all MAC related functions to the help desk or level 1 support – thus freeing up senior, highly skilled and valuable resources.

Not going to Cisco Connect Toronto do not worry  
For those not attending the show, please click here:  
[Stack8.com](http://Stack8.com) to request a personal demonstration for you and

helping organizations maximize both the frequency and range of use of the technology. Unlike traditional Cisco partners, our approach addresses Cisco UC issues, and opportunities more thoroughly, reducing the delays and frustrations that arise when expertise is lacking and helping to identify quick wins to get more value from the system, building confidence and support in the user community.

Founded in 2010, Stack8 Technologies is an independent, privately held company based in Montreal, Canada. To find out more, please visit [www.stack8.com](http://www.stack8.com).
