The personal care market is moving towards premiumization and consumers are seeking more tailored, trustworthy, and effective products. The result is a shift towards active and clinically tested ingredients that come with connotations of credibility and efficacy.

Scope

- 67% of consumers say that how familiar/trustworthy/risk-free a product feels always or often influences their product choice.
- 43% of consumers globally have a favorable perception of products that have claims tailored to their needs.
- 37% of consumers globally say that clinically inspired ingredients would increase their trust in a personal care brand.

Reasons to buy

- Compare the strategies and brands involved in dermocosmetics.
- Understand the ways that dermocosmetics appeal to consumers.
- Understand the trends driving the growth in dermocosmetics.
