CHICAGO, ILLINOIS, UNITED STATES, November 8, 2017 /EINPresswire.com/ -- Bestmmorpg2018.com, a newly launched website for massively multiplayer online role-playing games (MMORPG), today published its definitive guide to the hottest and best upcoming MMO games of 2018.

Seven MMORPGs are featured on the list. They are expected to be released next year and are all very unique.

"Next year will be very exciting because there are a lot of interesting MMOs that are currently being developed," said Nicole Reid, editor. "Players should check out our list since there are a lot of great games to choose from."

Reid further noted that some of the featured titles are indie games that veer away from the tried-and-tested MMORPG formula.

"Most of the games we included in the list will appeal to mainstream MMO gamers but there are a few that are quite niche. For example, if you like hardcore survival MMOs or strategy MMOs, then you will find interesting games on our [Best of 2018 list](#)," said Reid.
