

India Biopower Market 2017-By Facilitate Decision Making on the Basis of Historic and Forecasts Data 2030

PUNE, MAHARASHTRA, INDIA,
November 9, 2017 /EINPresswire.com/ --

SUMMARY

WiseGuyReports published new report, titled "Biopower in India, Market Outlook"

"Biopower in India, Market Outlook to 2030, Update 2017 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles", is the latest report from, the industry analysis specialists that offer comprehensive information and understanding of the Biopower market in India.

The report provides an in-depth analysis on global renewable power market and global Biopower market with forecasts up to 2030. The report analyzes the power market scenario in India (includes conventional Hydro, nuclear and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes Wind, small hydro, biopower and renewable) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in India Biopower market. A detailed coverage of energy policy framework governing the market with specific policies pertaining to Biopower market development is provided in the report. The research also provides company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.

Scope

The report analyses global renewable power market, global biopower (Biomass and Biogas) market, India power market, India renewable power market and India biopower market. The scope of the research includes -

- A brief introduction on global carbon emissions and global primary energy consumption.
- An overview on global renewable power market, highlighting installed capacity trends, generation trends and installed capacity split by various renewable power sources. The information is covered for

the historical period 2006-2016 (unless specified) and forecast period 2017-2030.

- Renewable power sources include wind (both onshore and offshore), solar photovoltaic (PV), concentrated solar power (CSP), small hydropower (SHP), biomass, biogas and geothermal.
- Detailed overview of the global biopower market with installed capacity and generation trends, installed capacity and generation split by major biopower countries in 2016.
- Power market scenario in India and provides detailed market overview, installed capacity and power generation trends by various fuel types (includes thermal conventional, nuclear, large hydro and renewable energy sources) with forecasts up to 2030.
- An overview on India renewable power market, highlighting installed capacity trends (2006-2030), generation trends(2006-2030) and installed capacity split by various renewable power sources in 2016.
- Detailed overview of India biopower market with installed capacity and generation trends and major active and upcoming biopower projects.
- Deal analysis of India biopower market. Deals are analyzed on the basis of mergers, acquisitions, partnership, asset finance, debt offering, equity offering, private equity (PE) and venture capitalists (VC).
- Key policies and regulatory framework supporting the development of renewable power sources in general and biopower in particular.
- Company snapshots of some of the major market participants in the country.

Key points to buy

- The report will enhance your decision making capability in a more rapid and time sensitive manner.
- Identify key growth and investment opportunities in India biopower market.
- Facilitate decision-making based on strong historic and forecast data for wind power market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects

Table of Contents

1	Table of Contents
2	Executive Summary
3	Introduction
4	Renewable Power Market, Global
5	Biopower Market, Global
6	Power Market, India
7	Renewable Power Market, India
8	Biopower Market, India
9	Power Market, India, Regulatory Scenario
10	Biopower Power Market, India, Company Profiles
11	Appendix
