## [Laptop Radiator Market 2017](#)

Computing devices such as desktops, notebooks, laptops, and hybrid laptops get heated up when they are in use. In order to cool these devices, cooling units are used in these devices. These cooling units comprise a fan and a radiator that dissipates heat through the heat sink. The radiators that are integrated into laptops are referred to as laptop radiators. The laptop radiator market is dependent on the laptop market, as radiators form an integral part of laptops.

The analysts forecast the global laptop radiator market to decline at a CAGR of (1.52%) during the period 2017-2021.
