On October 30th, 2017 the Department of Justice announced that one of the nation's largest hospice providers has agreed to pay \$75 million to resolve a government lawsuit alleging that defendants violated the False Claims Act (FCA) by submitting false claims for hospice services to Medicare. The settlement resolves allegations that between 2002 and

2013 the hospice provider knowingly submitted or caused to be submitted false claims to Medicare for services to hospice patients who were not terminally ill. While the whistleblower reward has not yet been announced it is anticipated to be in the millions of dollars.

According to the Georgia Corporate Whistleblower Center, "We believe there is probably a rouge hospice provider in most larger states-such as Georgia. Because Medicare payments for hospice services are so significant we suppose

some healthcare companies feel like it is worth the risk to recruit patients who are not dying. If you

know about a hospice provider in Georgia that is involved in these types of practices or tactics, please call us at 866-714-6466. The whistleblower rewards can be substantial for this type of information as we would like to discuss. Why sit on a potentially winning lotto ticket without ever knowing what it might have been worth?"

Simple rules for a whistleblower from the Georgia Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Georgia Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multimillion dollar state or federal tax evasion, or a Georgia based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation.
