

# L3 MAPPS Named in APAC CIO Outlook's List of Top 25 Asia-Pacific Simulation Solution Providers

MONTREAL, QC, CANADA, November 27, 2017 /EINPresswire.com/ -- L3 MAPPS announced today that it was named in APAC CIO Outlook's list of 2017 Top 25 Simulation Solution Providers in the Asia-Pacific region. APAC CIO Outlook's research acknowledges the innovative nuclear power plant learning technologies and simulation solutions provided by L3 MAPPS, as well as its customer-centric business approach.

"L3 MAPPS is honored to be recognized by APAC CIO Outlook," said Michael Chatlani, Vice President of Marketing & Sales for L3 MAPPS Power Systems and Simulation. "This accolade affirms that our high-realism nuclear power plant simulation solutions – powered by our Orchid® development and simulation product suite – are respected in the marketplace and serving their purpose of making the world a better, safer place."

APAC CIO Outlook's research team and advisory board analyzed top management and performance of more than a thousand simulation solution providers in the Asia-Pacific region over the past several months. The Top 25 Simulation Solution Providers were selected by narrowing the field to companies with innovative technologies and those that have shown great promise in serving customer needs or those that came highly recommended by their current clients. L3 MAPPS is the only company chosen in the nuclear power plant simulation arena.

APAC CIO Outlook is a print magazine published from Silicon Valley with editorial presence in all major Asia-Pacific countries. It provides a platform for CIOs, CTOs and other senior-level IT buyers, decision makers and CXOs of solution providers to share best practices. The publication's research team focuses on companies providing innovative technology solutions in the region.

L3 MAPPS has over 30 years of experience in pioneering technological advances in the marine automation field and over 40 years of experience in delivering high-fidelity power plant simulation to leading utilities worldwide. In addition, the company has more than four decades of expertise in supplying plant computer systems for Canadian heavy water reactors. L3 MAPPS also provides targeted controls and simulation solutions to the space sector. To learn more about L3 MAPPS,
