

Nancy McKean of A Beautiful Change Hypnosis to be Featured on CUTV News Radio

KENSINGTON, MARYLAND, UNITED STATES, November 30, 2017 /EINPresswire.com/ -- Hypnosis has long been thought of as a gimmick and magical act as often depicted on stage or television. The reality is hypnosis is one of the most powerful and safest healing modalities to help us overcome our most challenging and debilitating life issues.

Nancy McKean is a retired RN with 34 years of expertise in health care and founder of A Beautiful Change Hypnosis.

“During my amazing nursing career, I worked diligently in hospice and acute psychiatry unit and had the opportunity to spend quality time with patients,” says Nancy. “Hypnosis is another powerfully effective method of deeply connecting with people in a meaningful way.”

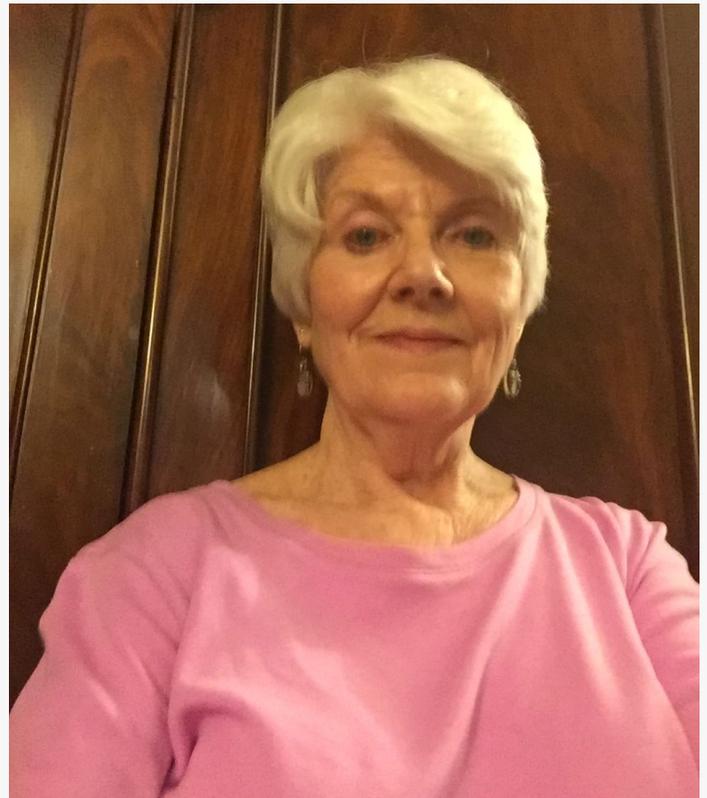

Nancy began exploring hypnosis in 1982 while employed at a big inner-city hospital. She was hired by a highly-regarded obstetrician to provide comfort to patients and prepare them for a less painful, more efficient labor.

“Hypnosis is basically working with people’s thoughts. My invaluable time in psychiatry guided me in understanding their minds so I am able to now provide my clients with the expertise they require. Helping people is my forte because I possess a high level of empathy for those in need.”

According to Nancy, a subject must be naturally open minded and follow her instructions thoroughly during a hypnosis session, listening to her voice, blocking out any distracting thoughts and relaxing their muscles appropriately. The client must allow Nancy’s voice to reach the subconscious part of their brain to experience positive results.

“Whatever difficulties or anxieties you are experiencing I can offer you more guidance than most people in my profession due to my experience as a registered nurse,” explains Nancy. “I have a deep compassion for people. Being a hypnotist has not only been extremely rewarding and gratifying for me but has delivered outstanding results.”

People seek out Nancy for issues such as broken relationships, smoking, weight loss, anxiety and addictions like gambling. In order for Nancy to achieve the desired results, she emphasizes how the client must truly want to rid themselves of their problems.

“Being a hypnotist is my life’s calling and I have assisted my clients successfully. They don’t even need to thank me,” says Nancy. “To see them healed and restored is my greatest reward.”

CUTV News Radio will feature Nancy McKean in an interview on December 4th at 12pm EST.
