

# Goodness Dental Maxillofacial & Orthognathic Surgeons Ranked as the Best in Costa Rica and Guatemala

*New York patient chooses maxillofacial surgery in Costa Rica and saves more than 50% when compared to New York prices.*

NEW YORK, NY, USA, December 3, 2017 /EINPresswire.com/ -- Costa Rica and Guatemala are recognized as leading destinations for affordable maxillofacial and orthognathic surgery. American patients often discover that quality maxillofacial and orthognathic surgery is cost-prohibitive in the USA. For the past two decades, many of these patients have discovered affordable dental surgery solutions from talented oral and maxillofacial surgeons in Costa Rica and Guatemala at a fraction of the price charged by oral surgeons in the USA and Canada.

One such patient, Alexandra was quoted more than \$50,000 for a complex TMJ surgery in New York. She received that same surgery in Costa Rica for less than \$22,000. “I would never have imagined that it was possible to go to another country for surgery. Yet, here I am, six months later, after surgery in Costa Rica with a new outlook on life and the confidence I never thought I would have again. I suffered from massive headaches, jaw pain and a constant popping of my jaws when I spoke or ate. It’s all gone now.”

[Goodness Dental](#), with clinic locations in Costa Rica and Guatemala is recognized for outstanding quality outcomes in maxillofacial surgery and orthognathic jaw surgery, receiving high patient satisfaction scores and accolades from dental tourism organizations in the USA and Canada. Destination healthcare leader, Soter Healthcare recently announced Goodness Dental as the company’s exclusive choice for patients seeking dental care in Costa Rica and Guatemala.

Goodness Dental follows ADA guidelines and complies with the techniques recommended by the National Institute of Dental and Craniofacial Research.

Goodness Dental offers a team of maxillofacial surgeons to ensure that patients receive a multi-disciplinary, highly consultative approach to ensuring surgical success. Put yourself in the shoes of a patient seeking a very important maxillofacial, orthognathic or dental implant surgery at home or abroad. Would you feel more comfortable with a recommendation from a general dentist or a

recommendation from a team of leading oral and maxillofacial surgeons? Hands down, the team approach offers the highest level of patient security and the highest ratios of clinical outcomes. Goodness Dental patients report feeling more comfortable receiving a clear recommendation from a team of surgeons. Patients comment that the team approach improves collaboration and surgical outcomes and allows patients to learn more about possible solutions before making an informed decision. This highly skilled team approach has catapulted Goodness Dental to the coveted position as the #1 ranked dental clinic in Costa Rica by Global Clinic Ratings and [CostaRicaDentalGuide.com](http://CostaRicaDentalGuide.com).

What makes Goodness Dental stand out from other oral and maxillofacial surgery clinics is the education and expertise of the surgical team. Dr. Diego Gonzalez, is the only maxillofacial surgeon in Costa Rica, licensed in both the USA and Costa Rica. He is supported by a team of outstanding oral, maxillofacial and orthognathic surgeons that is unsurpassed in Costa Rica.

In Guatemala, Dr. Rodrigo Cayarga, an NYU graduate, is the nation's leading oral and maxillofacial surgeon and the head of the maxillofacial department at Universidad Francisco Marroquín in Guatemala City. Dr. Cayarga and his team of surgeons at Goodness Dental offer patients the confidence of a world-class team with decades of combined experience.

Goodness Dental offers the following oral, maxillofacial and orthognathic surgeries in Costa Rica and Guatemala.

- Orthognathic Surgery/ Jaw Surgery
- TMJ Surgery
- TMJ Arthroscopy
- Joint Replacement Surgery
- Obstructive Sleep Apnea Surgery
- Facial Implants
- Buccal Fat Cheek Reduction Surgery
- Dental Implants
- Zygomatic Implants
- Wisdom Teeth
- Bone Grafting
- Sinus Lifting

The challenges posed by maxillofacial and orthognathic disorders span the spectrum. Patients living with TMJ disorder or other jaw disorders live in constant pain and discomfort. Goodness Dental is a recognized leader in the diagnosis, treatment and prevention of multiple maxillofacial and orthognathic disorders. The goal of the Goodness Dental oral and maxillofacial team is to gain a better understanding of the temporomandibular joint and muscle disease process and to improve quality of life for people affected by these disorders.
