PUNE, INDIA, December 4, 2017
/EINPresswire.com/ --

About [Domestic Freight](#)

Freight is a service or method for transportation of cargo via different modes such as road, air, water, or pipeline. It is also defined as the cost incurred on transportation of goods.

Domestic freight is the movement of cargo within the boundary of a country.

Freight service providers are specialized

in handling logistics such as transportation, warehousing, and air-freight forwarding. Often, freight service providers go beyond logistics and provide value-added services such as inventory management, cross-docking, door-to-door delivery, and packaging. They also provide strategic and operational value-added services to many shippers worldwide. Currently, domestic freight service providers are improving logistics by introducing innovative supply chain management.
