

Global Military Infrastructure and Logistics Market to Grow by CAGR 3.21% in Next 10 Years, Finds New Research Report

Latest Report *Global Military Infrastructure and Logistics Market 2017-2027* is now Available from MarketResearchReports.com

LEWES, DELAWARE, UNITED STATES, December 12, 2017 /EINPresswire.com/ -- With the global geopolitical situation changing rapidly, most countries are concentrating on modernizing their military infrastructure, including the construction of military bases, barracks, upgrading the logistics channels. Additionally, emerging economies in the Middle East and South Asian regions are witnessing increasing defense expenditure and are therefore likely to present global military infrastructure & logistics providers with greater opportunities in the coming decade

Growing territorial conflicts, terrorist attacks and cross border crimes has necessitated construction and maintenance of advanced border infrastructure and military bases, which is expected to boost the spending on military infrastructure & logistics. For example India has been investing heavily in border infrastructure across its high altitude borders with China and Pakistan, for battle readiness as well as preventing the terrorist infiltrations, which has led to large scale construction of roads, bridges and also railway tracks, and also construction of high tech fencing systems.

“

Global military infrastructure and logistics market is expected to value US\$37.8 billion in 2017, and will grow at a CAGR of 3.21%, to value US\$51.8 billion by 2027.”

SDI

In particular, the report provides an in-depth analysis of the following -

- Market size and drivers: detailed analysis during 2017-2027, including highlights of the demand drivers and growth

stimulators. It also provides a snapshot of the spending and modernization patterns of different regions around the world

- Recent developments and industry challenges: insights into technological developments and a detailed analysis of the changing preferences of military infrastructure & logistics segments around the world. It also provides trends of the changing industry structure and the challenges faced by

industry participants

- Regional highlights: study of the key markets in each region, providing an analysis of the key segments of the market that are expected to be in demand
- Major programs: details of the key programs in each segment, which are expected to be executed during 2017-2027
- Competitive landscape and strategic insights: analysis of the competitive landscape of the global market. It provides an overview of key players, together with information regarding key alliances, strategic initiatives, and financial analysis

Global military infrastructure and logistics market is expected to value US\$37.8 billion in 2017, and will grow at a CAGR of 3.21%, to value US\$51.8 billion by 2027. The cumulative global expenditure on military infrastructure and logistics over the forecast period is estimated to be US\$484.4 billion.

The demand for infrastructure and logistics is expected to be driven by the need to build infrastructure to fortify the border areas in view of various regional and territorial conflicts as well as to contain the cross border crimes and infiltration of terrorists. The logistics modernization initiatives undertaken by several of world's armed forces are also expected to be one of the key drivers for the growth of the market.

The market is expected to be dominated by the infrastructure construction segment, which will account for 47.1% of the market, followed by facilities management, and central logistics with shares of 31.8%, 21.1% respectively. The Asia Pacific region is forecast to dominate the sector with a share of 33.4%, followed by North America and Europe, with shares of 23.5% and 22.0% respectively.
