

CLEARGISTIX CEO NAMED ONE OF LOUISIANA'S TOP TECH INFLUENCERS

Steven J. Toups, CPA included among Silicon Bayou 100 honorees

MADISONVILLE, LOUISIANA, USA, February 7, 2018 /EINPresswire.com/ -- Cleargistix President and CEO Steven J. Toups, CPA has been included on the Silicon Bayou 100 for 2017, a list of the 100 most influential and active individuals in tech and entrepreneurship in Louisiana in 2017, the company announced today.

Toups, a Certified Public Accountant, is a graduate of Louisiana State University with more than 30 years of professional experience in private business and entrepreneurship. He joined Cleargistix in 2015.

Cleargistix is known for its cloud-based digital field ticketing solution used by customers in the oil and gas, tug & tow and construction industries. The company's software eliminates paper forms and provides real-time access to field information, such as job updates, safety and inspection data, payroll, revenue and more..

As a "light, fast, quick and easy" solution to information management between the office and the field, Cleargistix reduces the need for phone calls and emails between the field and the office and simplifies dispatches with alerts and notifications. And maybe most importantly, Cleargistix helps prevent the fire drills that are an all too frequent occurrence around invoicing and payroll processing at service companies.

"Being included on the Silicon Bayou 100 is an honor, and it's all because of the hard work of our team here at Cleargistix," President & CEO Steven J. Toups said "2017 was a year of growth for Cleargistix. From signing customers and partners to adding new functionality, our team was very focused and busy. In 2018, we are greatly looking forward to continuing the momentum we have built."

Toups was nominated for the honor. The full Silicon Bayou 100 list was revealed during an event Thursday at The Warehouse in New Orleans. The Silicon Bayou 100 is a project of Silicon Bayou News.
