

Cary Skin Center Celebrates 20 Years Providing Skin Cancer Treatment In North Carolina

Practice Continues Growth in Cary and Expansion In Pinehurst, N.C.

CARY, NORTH CAROLINA, USA, February 8, 2018 /EINPresswire.com/ -- This month The [Cary Skin Center](#) is celebrating 20 years as a medical practice. The practice – one of the North Carolina's largest [Mohs](#) surgery groups – is still growing and expanding. The practice added two more physicians and a physician assistant to its staff and added additional staff to their office in Pinehurst, N.C. The practice is celebrating its 20th year with a huge gala event for the referring provider colleagues on Thursday, March 1 from 5:30 to 7:30 pm at Cary Skin Center located at 200 Wellesley Trade Lane in Cary. The practice will be serving sumptuous hors d'oeuvres and marvelous wines for their provider visitors enjoyment and the opportunity to meet the two exceptionally trained and experienced Mohs surgeons that joined Cary Skin Center this year as well as providing hostess guided tours of our newly up-fitted facility.

The Cary Skin Center began in 1998 when Dr. Clark established the Cary Skin Center, a state-of-the-art outpatient surgical center specializing in Mohs

Micrographic Surgery for the removal of [skin cancer](#). Dr. Flynn joined the Cary Skin Center in 2001 and together they have successfully treated countless patients in the Triangle and surrounding areas. Because Mohs surgery is a highly complex and sophisticated surgical method, it requires extensive

training. The doctors have completed intensive training programs, including complex surgical cases and advanced reconstructions, to become Fellows of the American College of Mohs Surgery. In addition, they offer over 62 years of combined Mohs surgery experience.

We now welcome Dr. Ayli and Dr. Ingraffea to the clinical staff at Cary Skin Center. Cary Skin Center recently announced addition of Dr. Adam Ingraffea, Mohs Surgeon, to the staff.

Mohs Surgeon

The physicians and staff of Cary Skin Center seek to provide the highest quality of healthcare to our patients. We pledge compassionate, timely, and confidential care”

Robert E. Clark, MD, PhD

He studied medicine at the Ponce School of Medicine in Ponce, Puerto Rico. He graduated class valedictorian and was selected to the Alpha Omega Alpha medical honor society. He went on to complete a dermatology residency at the Boston University/Roger Williams Medical Center in Providence, Rhode Island, where he served as chief resident. Dr. Ingraffea then moved to Cincinnati to train in Mohs surgery under the direction of Hugh Gloster, MD, at the University of Cincinnati College of Medicine.

He served as an assistant professor of dermatology at the University of Cincinnati College of Medicine for five years. He was the associate program director for both the dermatology residency and Mohs surgery fellowships. He was also the director of the resident continuity clinic and Mohs surgery at the Cincinnati VA hospital. While at the University of Cincinnati, Dr. Ingraffea won many awards including Teacher of the Year in 2012. He was selected as a Best Physician in Cincinnati Magazine for three years in a row from 2013-2016. He is the author of 18 peer reviewed papers as well as multiple book chapters.

His clinical interests are in cutaneous oncology, Mohs surgery and facial reconstruction. He has performed over 7500 cases of Mohs surgery.

Cary Skin Center recently announced Dermatologic Mohs surgeon Dr. Elias E. Ayli, DO, FAAD, FACMS has joined the practice. Dr. Ayli will be located at the Cary and Pinehurst medical offices, providing his expertise in the diagnosis and treatment of skin cancer as well as reconstructive surgical dermatology.

Mohs Surgeon

Born and raised in a small town in northern New Jersey, Dr. Elias E. Ayli is a fellowship-trained Mohs micrographic and reconstructive surgeon who was awarded an academic scholarship to attend Villanova University, where he earned a bachelor's degree in Biology. He received his medical degree from the Philadelphia College of Osteopathic Medicine, where he was inducted into the honorary Sigma Sigma Phi service fraternity, was distinguished for obtaining the highest cumulative GPA in pathology, and graduated at the top of his class.

Following this fellowship, Dr. Ayli served his medical internship and dermatology residency at the University of Cincinnati. After residency, he completed his Mohs Micrographic and Dermatologic Oncology fellowship in Georgia, under the direction of Dr. David E. Kent, a nationally renowned Mohs micrographic and reconstructive surgeon. During his fellowship, Dr. Ayli received extensive training in Mohs micrographic and facial reconstructive surgery.

He has performed nearly 7000 Mohs surgical cases, acquired expertise in advanced facial reconstructive surgery and the treatment of aggressive skin tumors, and was one of only a handful of Mohs surgeons in the country to utilize Mohs micrographic surgery for the treatment of melanoma.

"The physicians and staff of Cary Skin Center seek to provide the highest quality of healthcare to our patients. We pledge compassionate, timely, and confidential care," said Dr. Clark.

"The face of medicine is changing all the time," said Dr. Clark. "Our Mohs surgeons and staff focus on providing the most advanced surgical treatments and the practice's doctors are extensively trained in surgical reconstruction. This includes basic closures, and more complicated skin flaps and skin grafts. They perform hundreds of these procedures each year. The goal is to provide the best possible cosmetic result after the removal of skin cancer."

The Cary Skin Center is conveniently located on the corner NC Highway 55 and High House/Green Level Road in Cary, NC. Our Pinehurst office is located at 5 Regional Circle, Suite C in Pinehurst, NC. We offer free on-site parking
