

# Cary Skin Center Pinehurst Announces New PA Associate

*Her experience and expertise will be a great resource for the patients in Pinehurst*

PINEHURST, NORTH CAROLINA, USA, March 5, 2018 /EINPresswire.com/ -- Cary Skin Center is proud to announce the appointment of Shannon Craven, PA-C as a Physician Assistant for their office in [Pinehurst](#), N.C. Mrs. Craven is an experienced Dermatologic Physician Assistant and is a professional with advanced education and national certification.

Shannon Craven joins Cary Skin Center with a Master of Health Science Physician Assistant studies at Mercer University, Atlanta, GA. and a Masters of Biological Science at Clemson University, Clemson, SC. She is a graduate of Francis Marion University, Florence, SC.

Mrs. Craven has had experience as a Molecular Research Associate at Greenwood Genetic Center. She was also a teaching assistant at Clemson University where she was an instructor in a Science Inquiry Lab.

Mrs. Craven is a member of the Society of Dermatology Physician Assistants. Other memberships include the American Academy of Physician Assistants, Godsey-Matthews Society and the North Carolina Medical Society.

“We are proud to have Shannon join our practice, Cary Skin Center Pinehurst,” said, Robert E. Clark, MD, PhD, founder of Cary Skin Center, “Her experience and expertise will be a great resource for the patients in Pinehurst and surrounding areas.”

We are proud to have Shannon join our practice, Cary Skin Center Pinehurst.”  
*Robert E. Clark, MD, PhD*

Shannon Craven, P.A.

Outside of work, Mrs. Craven enjoys spending time with her husband and two children. Active in hiking, she has hiked the Foothills Trail in South Carolina and hiked some 523 miles of the Appalachian Trail.

Cary Skin Center has offices in Cary and Pinehurst, North Carolina. Led by Robert E. Clark, MD, PhD and Timothy C. Flynn, MD, Cary Skin Center is dedicated to the treatment of [skin cancer](#).

About Cary Skin Center:

In 1998, Dr. Clark established the Cary Skin Center, a state-of-the-art outpatient surgical center specializing in [Mohs](#) Micrographic Surgery for the removal of skin cancer. Dr. Flynn joined the Cary Skin Center in 2001 and together they have successfully treated over 50,000 patients in the Triangle and surrounding areas.

Because Mohs surgery is a highly complex and sophisticated surgical method, it requires extensive training. Dr. Clark, Dr. Flynn, Dr. Ayli and Dr. Ingraffea completed 1-2 year intensive training programs, including complex surgical cases and advanced reconstruction to become Fellows of the American College of Mohs Surgery. In addition, they offer over 60 years of combined Mohs surgery experience.
