

# Recently Launched Online Platform Paves Way to Achieve Stronger Community Bonds

*EezyBee's goal is to encourage users to play a role in our shared social responsibility*

SAN JOSE, CALIFORNIA, USA, February 16, 2018 /EINPresswire.com/ -- Millions of Americans are frantically working towards self sustenance in an ever-growing financial climate. The Pew Research Center reports that close to 14.6 million people in the United States are self-employed, which accounts for about 10% of the active workforce. In order to meet the demands of those who aim to make their own way in the U.S, a new effort is being made to provide them with a means of stabilizing a secure livelihood. As such, a number of online service platforms have recently emerged in order to do just that.

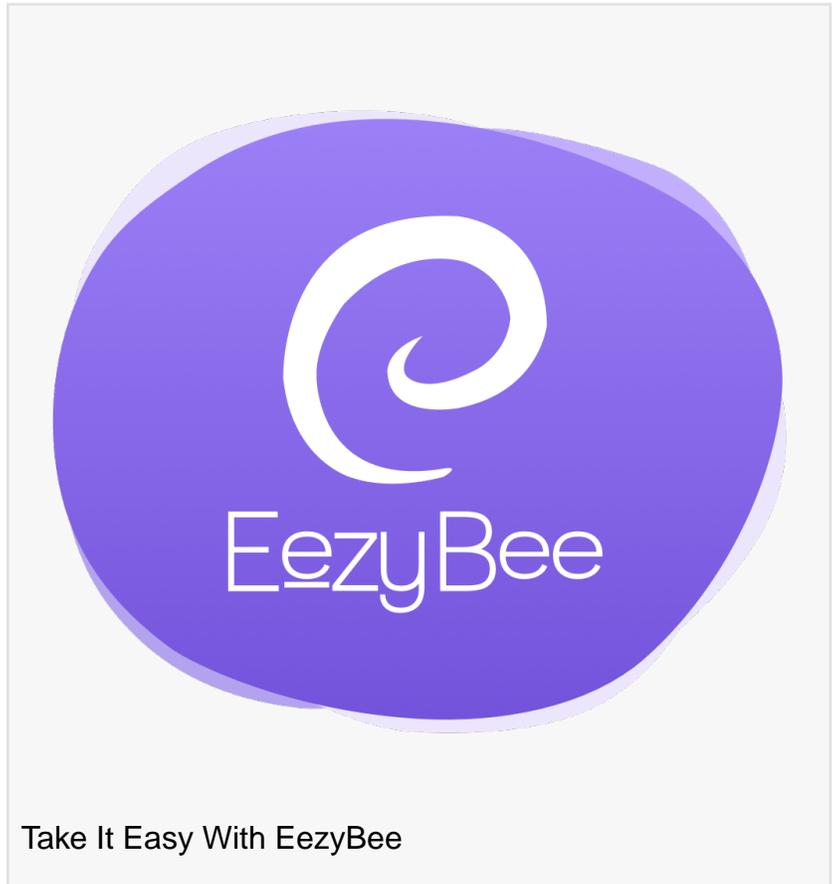

A fundamental selling point of these online service platforms has been to serve as money-making machines for those who sign up and provide services.

Though the promise of monetary gain is enticing, a peculiar online service platform has recently attracted attention for offering more than just personal gain.

"If you're looking to earn money while giving back to your community, EezyBee can be your best choice in doing so", stated Izza Jahari, the founder and lead visionary of the EezyBee platform.

EezyBee, the one-stop hub for connecting local service providers and service seekers, is a community-driven platform that allows users to create sustainable forms of income with the purpose of pursuing happier and healthier lifestyles within their communities. The team behind EezyBee fully supports the notion of social responsibility, their goal is to reintroduce the core values that bind us together. By creating unbiased opportunities for all to use the free and openly accessible platform, EezyBee encourages users to get to know their neighbors and create meaningful relationships with those around them.

"It's not just about transactions and earning cash. EezyBee allows our community members to truly embrace each other. All of the hard work, effort, and skill that goes into accomplishing these services needs to be recognized...and celebrated. We all come from diverse cultures and backgrounds, we need to acknowledge and appreciate one another for who we are as individuals and as a whole", Izza

Jahari went on to say.

Indeed, the platform is pushing to be more than just an online marketplace and transaction tool. EezyBee is centering its focus on personal and household management by offering a comprehensive productivity and efficiency tool. EezyBee's goal is to provide a platform for individuals to accomplish tasks as simple as household cleaning to more complex tasks such as interior design and personalized education among others. Those seeking service can expect to free up their time for the more meaningful things in life such as spending time with family, friends, or simply doing the things they enjoy the most. Those who provide service can expect to earn sustainable income while doing the things they love most. Both parties can expect to receive an opportunity to build a healthy business relationship while building stronger social bonds.

Izza Jahari commented further, "On EezyBee, we can all play a part in creating a positive impact for those closest to us. Join us in fulfilling our social responsibilities by building a healthier, safer, and more prosperous community."

## ABOUT EEZYBEE

EezyBee is a community driven online service marketplace, a tool used to connect local service providers with local service seekers. The platform was created to present untapped opportunities for service providers to offer their hobbies, skills, or special talents as services and receive payment. The platform was also created to provide service seekers with seamless, trustworthy, affordable, accessible, and reliable access to services in their area. The goal is to allow our users to create more time for the more important things in life. We aim to support our target market, or anyone who is seeking to improve their financial situation. With this in mind, we also champion the notion of community-based health and encourage our users to get to know those around them for stronger social bonds and healthier lifestyles.

We extend a welcoming offer to our users to start their own business cost-free, risk-free, and on a low-commitment basis.

The live platform allows users to post their services, hire service providers, schedule and manage ongoing services, send/receive payment for all completed services, and incorporates many other exclusive features. We've created a mobile version to allow our users to manage their services on the go for a more streamlined experience as well. We encourage anyone who seeks a better financial future or anyone who requires service to join our platform and receive the benefits EezyBee has to offer.
