“

Growing adoption of cloud-based services in healthcare is escalating the global healthcare cloud computing market”

OMR Analyst

“The global healthcare cloud computing market is driven by some pivotal factors, which includes growing adoption of cloud-based services in healthcare and wide application and services of cloud healthcare across the globe. Reforms in [Healthcare Information](#) Technology and growth in cloud computing market is also pushing the Healthcare cloud computing market during the forecast period. Furthermore, Research and development in cloud healthcare, rising patents in healthcare and cost-cutting services of cloud are also driving the growth of the market. Adoption of patient

protection and affordable care act is creating huge scope for the growth of the market.”

Global healthcare cloud computing market enables to secure patient data and information which can be shared with the physician and other doctors as per the requirement. There are a wide variety of products available in global healthcare cloud computing market which are designed for the smooth flow of operations and to improve healthcare system with cloud-based technologies. It also enables to store, manage and process data from different locations and delivers hosted services over the internet. In the healthcare industry, cloud computing as a technology is offered in four forms computation, storage, memory, and networking. Cloud computing is increasingly welcomed in the

healthcare industry owing to the rising pressure to curtail healthcare costs while maintaining the quality of care for patients. Global healthcare cloud computing market is also stimulated by the growth in IT sector and demand for innovative healthcare computing products. Global Healthcare Cloud Computing Market always provide tools to manage cloud solutions to reduce internal workloads and add value to the clients.

Leading market players such as Google, Microsoft and Amazon have extended their cloud services for the healthcare sector. Global cloud market has invested more than \$3 billion in the healthcare industry in year 2014, and it is further estimated to reach approximately \$10 billion by the year 2018. Additionally, implementation of HIPAA and PCI DSS is further forcing healthcare organization to adopt cloud for the security of patient information. Health Insurance Portability and Accountability Act (HIPAA) is U.S. legislation that provides data privacy and security provision for safeguarding patients health data.

North America is dominating the healthcare cloud computing market. The market will grow at a considerably high CAGR for the forecast period of 2018-2023. North American market is driven majorly by presence of various leading cloud computing services provider in the market. Hospitals and medical centers are demanding online services which can help them to store and access patient data online from anywhere. There is also high demand for cloud computing services for radiologists, pathologists and pharmacists. Hence, the North American market has significantly higher market share compared to other regions. Asia Pacific has the second highest market share and highest CAGR for the forecast period of 2018-2023. The market is driven by improving healthcare and IT infrastructure in the Asia Pacific. The market for cloud computing in India, China, Japan, Australia, ASEAN nations is growing with the emergence of local providers. The local start-ups and global companies are partnering with local government, hospitals, medical service providers, pharmacies and pathologies to provide cloud computing services. The emergence of the chain of hospitals is also one of the leading reasons for the high growth of cloud computing in healthcare. The European market is also growing at a good growth rate.

Companies Profiled:

- Agfa Gevaert Group
- Allscripts Healthcare Solutions Inc.
- AT&T Inc.
- Athenahealth, Inc.
- Carecloud Corporation
- Carestream Health, Inc.
- Cisco Corporation
- Cleardata Networks, Inc.
- Dell Inc.
- EMC Corporation
- Global Net Access (GNAX)
- IBM Corporation
- Iron Mountain, Inc.
- Merge Healthcare, Inc.
- Microsoft Corporation
- Veeva Systems Inc.
- Verizon Enterprise Solutions
- VMware, Inc.

About Orion Market Research

Orion Market Research (OMR) is an Indian research company known for its crisp and concise reports. The company is equipped with an experienced team and young brigade of analysts. The

company provides quality syndicated research reports, [customized research reports](#), company profiling, consulting and other research-based services. OMR provides global and regional market reports of various domains such as healthcare, energy, IT, chemicals, and automobiles. The company provides a 360-degree view of the market with parametric analysis, key market insights, key findings, statistical forecasts, competitive landscape, extensive segmentation, key trends, strategic recommendations and detailed company profiles.
