

Automated Food Product Receiving & Cost Updating Available with Performance Food Group & Clear Sky Software Interface

With this new interface, time-consuming and tedious data entry is eliminated thus saving hours and increasing accuracy and efficiency.

CHARLOTTE, NC, USA, May 21, 2018 /EINPresswire.com/ -- Clear Sky Software, Inc. ® announced today the release of a new software interface between the company's food inventory control system, called [Clear Sky FOOD](#) and Performance Food Group (PFG ®). This interface is available immediately.

Our interface to Performance Food Group makes our inventory software a much more effective tool for our customers and prospects who utilize services from PFG.”

Jay Williams, Director of Sales & Marketing

Through the company's PFG interface, users of Clear Sky FOOD have a food tracking system that streamlines the process of receiving PFG products. Once a PFG order arrives at a customer site, users select the Clear Sky FOOD receiving function and import PFG electronic invoices. Product pricing is updated to current amounts and product substitutions are added to the Clear Sky FOOD product

master file. With this new interface, time-consuming and tedious data entry is eliminated thus saving hours and increasing accuracy and efficiency.

With this new offering from Clear Sky Software, hospitality organizations have a complete, back-office food inventory management solution integrated with a major foodservice distributor. Clear Sky FOOD helps users track food products from the point of purchase, through receiving and the ultimate transfer to kitchens, restaurants, banquets or any POS outlet. Clear Sky FOOD also includes physical inventory functions to speed up the process of counting bar coded and non-bar coded products.

“Our interface to Performance Food Group makes our inventory software a much more effective tool for our customers and prospects who utilize services from PFG. We are happy to add PFG to our growing list of interfaces to North America's leading food product vendors.”

Jay Williams, Director of Sales & Marketing, Clear Sky Software

About Clear Sky Software, Inc. ®

Clear Sky Software is a software developer, systems integrator, and technology solution provider to the hospitality industry. The company provides bar code-based food and beverage inventory management systems that help organizations control inventory, reduce labor, lower costs and increase profits. Clear Sky systems replace manual inventory practices and eliminate repetitive steps therefore offering improvements in worker efficiency, productivity and accuracy. Ultimately, users have access to better information thus supporting smarter purchasing decisions that affect a company's bottom line. Visit the company at www.clearskysoftware.com.

About Performance Food Group (PFG ®)

PFG is the parent company to Performance Foodservice, Vistar and PFG Customized. Each division meets the needs of a unique group of customers and continues to evolve as the industry grows and changes. As a group, PFG can meet almost any foodservice need, spanning independent restaurants, national chains, vending, concessions, and more.
