

The Americas Will Offer The Highest 3D Printing Market Opportunities To 2022, New Research Shows

LONDON, GREATER LONDON, UK,
October 11, 2018 /EINPresswire.com/ --

[3D Printing Devices, Services And Supplies Global Market Opportunities And Strategies To 2022](#) an exciting new report from [The Business Research Company](#), shows that the American market for 3D Printing will put on nearly twice the annual \$ sales of the second-fastest region, Europe, the Middle East and Africa (EMEA), between 2014 by 2022 and nearly three times as much as Asia Pacific. In 2015, the Americas accounted for 59% of the global 3D printing market, with the US being the largest revenue contributor.

The principle factors behind this dominance of the Americas region are the openness to the adoption of innovation of American industries such as the aerospace, automotive, energy, and healthcare, and favourable government policies. As a result, although both the EMEA and the Asia Pacific markets for 3D printing are now growing faster than the Americas' in percentage terms, the Americas' head start means neither of them will offer the same volume of opportunities as it will.

Where To Learn More

Read 3D Printing Devices, Services And Supplies Global Market Opportunities And Strategies To 2022 from The Business Research Company for information on the following:

Markets Covered: 3D Printing Hardware Devices Market, 3D Printing Software Market, 3D Printing Services Market, 3D Printing Materials Market.

Data Segmentations: 3D printing global and regional total and by product segments – hardware, software, services and materials 2014-22 market size and growth rates.

3D Printing Organizations Covered: D Systems Corporation, Arcam AB, The ExOne Company, Stratasys Ltd., EOS GmbH Electro Optical Systems, EnvisionTEC, Materialise NV, XYZprinting, SLM Solutions Group AG, M3D.

Regions: North America, Europe, Asia Pacific, ROW (Rest of world)

Time Series: 2014-16 actuals, 2017 estimates, 2018-22 forecasts.

Other Information And Analyses: 3D printing market potential, processes involved in 3D printing, global 3D printer sales, market drivers, market challenges, market opportunities, company overview, business strategy, financial overview, products and services, SWOT analysis, recent developments, key executives for ten leading 3D technology companies.

Strategies For Participants In The 3D Printing Industry: The report explains over 30 strategies for 3D printing sector companies, based on industry trends and company analysis. These include increasing the efficiency of machines to expand the addressable market, a focus on customer training and education to promote awareness and technological developments such as 3D systems' Jaw in a Day, the latest addition to its VSP (Virtual Surgical Planning) Reconstruction product line.

Opportunities For 3D Printing Sector Companies: The report reveals the global, regional and country subsegments where the 3d printing industry will put on most \$ sales up to 2022.

Number of Pages: 86

Number of Tables: 33

Number of Figures: 40

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.
