

Texas Mesothelioma Victims Center Now Offers a Chemical Plant Worker with Mesothelioma in Texas Direct Access to The Nation's Most Capable Lawyers Who Will Produce Much Better Compensation Settlement Results

NEW YORK, NEW YORK, USA, November 7, 2018 /EINPresswire.com/ -- The Texas Mesothelioma Victims Center is promising direct and immediate access to some of the nation's most capable mesothelioma attorneys for a much better financial compensation result for a chemical plant or refinery worker who has recently been diagnosed with mesothelioma in Texas. They are urging a person like this to not play "internet lawyer roulette" with a local personal injury attorney who may or may not know what they are doing.

A successful mesothelioma compensation claim outcome for a diagnosed person whose asbestos exposure took place at a chemical plant or refinery will require one of the nation's most experienced and skilled mesothelioma attorneys, as the group would like to discuss anytime at 800-714-0303.

According to the Texas Mesothelioma Victims Center, "As we would like to explain to a chemical plant or refinery worker with mesothelioma in Texas anytime at 800-714-0303, aside from it being incredibly important for a person like this to have the nation's top lawyers representing them, it is also vitally important the person have coworkers who witnessed the exposure to asbestos. An eyewitness adds credibility to a mesothelioma financial claim and frequently it is the coworker/witness who can add additional information about asbestos exposure the person with this rare cancer may have forgot.

"Our number one priority is making certain that people in Texas with mesothelioma because of asbestos exposure at a chemical plant or oil refinery have the best possible legal representation so that they receive the best possible financial compensation." For more information on the process, a diagnosed person with mesothelioma in Texas or their family members are welcome

to call the Texas Mesothelioma Victims Center anytime at 800-714-0303.

High-risk work groups for exposure to asbestos in Texas include Veterans of the US Navy, power plant workers, oil refinery workers, oil rig workers, chemical plant workers, factory workers, plumbers, electricians, auto mechanics, machinists, and construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

“

Our number one priority is making certain that people in Texas with mesothelioma because of asbestos exposure at a chemical plant or oil refinery have the best possible legal representation.”

Texas Mesothelioma Victims Center

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, because Texas is one of the nation's largest energy producing states mesothelioma does happen to very good people in Texas.

For more information about mesothelioma please refer to the National Institutes of Health's web site related to this rare form of cancer: <https://www.cancer.gov/types/mesothelioma>.
